Wooden Playsets

About Our Playsets

- Wood construction has no static to shock your child and is a renewable resource.
- Built to outlast your child's play years.
- We use top grade, kiln-dried, pressure-treated, lumber which is not harmful to children or pets.
- You can buy our set with stain or you can stain your own. We recommend you re-stain your wooden playset once a year the first three years. After three years, you can enjoy the natural beauty of wood for years to come.
- To enjoy the beauty of wood, you must know that all wood will crack, split, twist, warp, or bow, without losing much of its strength.
- Children should always be supervised by an adult while using a playset.
- Because of the shrinkage of wood, you should check for loose bolts, lags, or screws and tighten up as needed.

Standard Features

- Soft Grip Chains 3/16
- Zinc Hardware
- Edges Rounded and Sanded

*Safe for Your Children
as Well as Ours!*

About Our Delivery & Setup

- Our towers are normally assembled to deliver.
- All 5' x 5' towers require a 5' 6" gate opening.
- All 4' x 4' towers require a 4' 6" gate opening.

- All towers without shingle roof can be disassembled, brought out in a kit, and carried through a 3' wide gate.
